PROJECTS

Airbnb Clone (Full Stack)

Live: majour-project-by-shipra.onrender.com

- Developed a full-stack property booking platform inspired by Airbnb using Node.js, Express.js, MongoDB, and EJS.
- Implemented user authentication, authorization, CRUD operations, wishlist functionality, booking workflow, search filters, and map integration.
- Built responsive UI and integrated backend APIs for seamless user experience.
- Deployed the application on Render for live access and testing.

Spotify Clone (Frontend)

Live: spotify-clone-green-phi.vercel.app

- Built a Spotify-inspired music player using HTML, CSS, and JavaScript with an interactive and responsive user interface.
- Implemented core music player features including play/pause, next/previous track, shuffle, and playlist management.
- Developed a real-time progress bar with seek functionality, volume controls, and dynamic song information updates.
- Designed a responsive user interface with active song highlighting, album artwork display, and smooth user interactions.
- Deployed the application on Vercel for live access and demonstration.

Portfolio Website

Live: shipra-portfolio.vercel.app

- Designed and developed a personal portfolio website to showcase projects, skills, and achievements.
- Created responsive layouts optimized for desktop and mobile devices.
- Integrated project links, GitHub profile, and contact information.
- Deployed and maintained the website on Vercel.
